COME SHARE YOUR INNOVATIVE DOCTORAL TRAINING
29-30 AUGUST 2016
AT DTU, COPENHAGEN

The technical university alliances CESAER, CLUSTER, EuroTech, IDEA League and Nordic Five Tech invite you to a 2-day Workshop on Innovative Doctoral Training at DTU in Lyngby, Denmark.

The workshop is expected to draw about 100 participants, notably leaders of doctoral schools, PhD students, vice-rectors, deans, as well as administrative and academic staff engaged in doctoral education.

INNOVATIVE DOCTORAL TRAINING

The European Commission has defined seven principles of innovative doctoral training: research excellence, attractive institutional environment, quality assurance, interdisciplinary research options, transferable skills training, exposure to industry and other relevant employment sectors and international networking. In particular, the last four principles bear special importance for universities of science and technology across Europe.

Some of these principles will be explored at the Workshop on Innovative Doctoral Training at DTU 29-30 August 2016. The point of departure is the principles defined by the European Commission as well as the conclusions and recommendations from the Discussion Paper “Innovative Doctoral Training at Universities of Science and Technology”.

KEY DISCUSSION POINTS

At the workshop and parallel sessions, we will focus on the above mentioned key topics in Innovative Doctoral Training.

Members of CESAER universities will present practical examples as introductions to each theme. There will be ample opportunity for active participation, discussion, peer learning, and networking while looking at particular challenges, expectations and opportunities of Innovative Doctoral Training.

PROGRAMME

MONDAY 29 AUGUST 2016

12:00 Arrival / Lunch
12:45 Welcome session
13:45 Session 1
  Supervision / Internationalisation
15:15 Break
15:45 Session 2
